PROFESSIONAL SUMMARY

Results-driven HR and Learning Operations professional with experience supporting enterprise learning, workforce capability development, and large-scale program operations. Experienced in end-to-end learning coordination, certification administration, leadership reporting, stakeholder engagement, process documentation, and operational improvement. Recognized for ownership, structured execution, and building practical reporting solutions that improve team visibility and consistency.

PROFESSIONAL EXPERIENCE

Analyst – Talent Development | Tata Consultancy Services (TCS)
AI & ST Talent Development | 05 June 2025 – Present | Bengaluru, India

- Coordinated end-to-end execution of **80+ enterprise learning programs**, covering scheduling, learner onboarding, attendance tracking, communications, and post-training support.
- Supported learning and certification operations for **10,000+ learners**, managing high-volume communications and resolving operational and certification-related queries.
- Administered and tracked **500+ certification vouchers**, supporting eligibility validation, timely issuance, follow-up, and adherence to program guidelines.
- Prepared **weekly leadership reports** covering learner participation, certification progress, operational KPIs, risks, and program performance.
- Designed and maintained **20+ Excel trackers, dashboards, and reporting templates**; several solutions were adopted for recurring team operations.
- Authored SOPs, process documentation, and knowledge articles to strengthen operational consistency, knowledge transfer, and business continuity.
- Identified operational gaps and introduced practical workflow improvements that simplified manual activities and improved reporting accuracy.
- Collaborated with **10+ trainers** and cross-functional stakeholders to coordinate instructor-led and virtual learning programs.
- Mentored and onboarded a newly assigned manager through a structured one-month knowledge transfer covering processes, workflows, and reporting.
- Handled learner escalations and took proactive ownership of critical activities, earning repeated appreciation for accountability and timely execution.
